One stop solution for
HEALTH NEEDS

DIGITAL HEALTH WALLET

An individual health portal for health record, profile, tools and services in a private, secure and confidential environment. Patient and Healthcare providers like doctors, specialists and hospital staff can see it online from anywhere at any time when they need to, like in an accident or emergency with access control.

H-Connect provides you the power to manage your own health by enabling you to monitor and store your health data from different sources- hospitals, laboratories and even old medical records.
